

## **Sacred Heart Parish**

### **Building and Grounds Committee**

**January 6, 2021**

#### **Attendees:**

Bob Fisher, Larry Fisher, Eric Gabel, Dick Holland, Denny Jenkins, Father Krzysztof, Jeff Mackey, Aggie Mackey, Charlie Sherman, Donna Steinbauer and Cyle Stull.

Our opening prayer was led by Father Krzysztof.

#### **Topics Discussed:**

Sewer pipe at Tracey's house. The cast iron pipe needs to be replaced in the basement. Mike Hoffman will replace this the last week in January. After this is done, the main floor ½ bath will need to have the flooring replaced. There are signs of water damage.

Columbia Gas has been contacted about the gas leak at the mailbox at Tracey's.

Our lawn mowing service will take care of our snow removal this year again. Rohr Lawn Care is responsible for the parking lot at church, school and rectory. They also will remove the snow from sidewalk and driveway at Tracey's house.

The fire alarm was turned off for Christmas Eve mass. In the future, it does not have to be turned off, we only need to contact Habitac and tell them to turn the alarm off and back on to allow for the 11:00 evening mass. Denny will check the batteries at the school, church and share center and get new ones if needed.

Father has informed us the lock on the back door of the rectory needs to be replaced. Dick will contact Northcoast to replace.

Father was contacted by school secretary that the lunchroom ceiling was leaking. Father told her to contact the school maintenance. Bob will follow up to see if it has been fixed or what needs to be done. Roof may still be under warranty.

## FUTURE PROJECTS

Some ideas for future projects and improvements were discussed and follow:

Blacktop needs to be sealed. 3 bids will be obtained.

New landscaping around church.

Parking and sidewalk to prayer garden.

Shelter house for summer outside masses.

Fill holes with dirt and grass seed at Tracey's

Our next meeting will be March 3 at 7:00
